SVETLANA PERSHUTKINA

Analytics Lead

Analytics ownership | Metric strategy | Data foundations | Executive decision support

Moscow, Russia | Open to UK relocation | Skilled Worker sponsorship required | Worldwide remote
pershutkina2000@gmail.com | English C1

PROFESSIONAL PROFILE

Hands-on analytics professional with 3+ years of experience owning complex product and operations domains. Set measurement approaches, build reusable data foundations and translate analysis into priorities for product, engineering, operations and executive stakeholders. Experienced in launching analytics capabilities from zero across international operations.

CORE SKILLS

Analytics leadership	Domain ownership, metric strategy, analytical prioritization, executive communication, cross-functional alignment, decision frameworks
Product and operations	Experimentation, customer experience, fleet reliability, process improvement, quarterly planning, financial modeling, ROI
Data and BI	SQL, Python, dbt, Dagster, Amazon Redshift, data modeling, data quality, Tableau, Power BI, Looker, Git

PROFESSIONAL EXPERIENCE

Whoosh | Product and Data Analyst

Mar 2025 to Present

- Serve as the analytics owner for customer experience and fleet efficiency, reliability and maintenance across 7 countries and 100+ regions.
- Partner with product managers, engineers, regional leaders and executives to define metrics, investigate performance gaps and support quarterly priorities and investment decisions.
- Built the analytics foundation from zero: a warehouse, 50+ reusable data models, a metric tree and automated reporting used by 100+ employees.
- Converted fleet failure signals into an early-detection process that reduced time to repair intake from 14 days to 1 day and improved the relevance of referrals by 30%.
- Produced financial models and quarterly review materials that compare expected and realized impact and return on investment.

T-Bank | Business and Systems Analyst, Collections

Aug 2024 to Mar 2025

- Designed and analyzed A/B tests of communication channels, timing and frequency to inform improvements to collection strategies.
- Delivered 20+ technical specifications, validated implementations with SQL and contributed to metric definition and validation for a buy now, pay later machine-learning feature.

Moscow Department of Transport | Geospatial Analyst

Jun 2023 to Aug 2024

- Analyzed demand and routes for Moscow's cycling infrastructure strategy through 2030 and developed data-backed recommendations for 100+ bicycle-parking locations.
- Presented findings to leaders at Yandex, Whoosh and Urent to align stakeholders on infrastructure decisions.

SELECTED PROJECT

Harvard University Spatial Data Lab | ODPT Challenge 2026

CompactLife Daily Routine Intelligence | Project in development | 2026

- Preparing CompactLife for the ODPT Challenge 2026 and structuring the work from product hypothesis through data architecture, model validation, routing and deployment requirements.
- Defined a staged delivery plan that separates a useful routine-comparison MVP from later machine-learning capabilities, with explicit acceptance criteria and evidence requirements.

EDUCATION AND PROFESSIONAL DEVELOPMENT

HSE University | Master's in Operational Efficiency and Production Systems | Expected 2027

Lomonosov Moscow State University | Bachelor's in Economic and Social Geography | 2024

Karpov Courses | A/B Testing | 2025
