SVETLANA PERSHUTKINA

Data Product Manager

Data products | Product measurement | Experimentation | Mobility intelligence

Moscow, Russia | Open to UK relocation | Skilled Worker sponsorship required | Worldwide remote
pershutkina2000@gmail.com | English C1

PROFESSIONAL PROFILE

Data and product analytics professional with 3+ years of experience turning operational and behavioral data into measurable product improvements. Define metrics and event taxonomies, validate changes through experiments, translate business problems into data requirements and align product, engineering and operations teams. Current project work covers a mobility data product from MVP scope through data architecture and model validation.

CORE SKILLS

Data products	Product measurement, data requirements, metric design, event taxonomies, analytics specifications, data quality, acceptance criteria
Product development	Experiment design, funnel analysis, customer experience, UX measurement, stakeholder alignment, financial cases, ROI
Technical	SQL, Python, dbt, Dagster, Amazon Redshift, API and data pipeline concepts, Tableau, Power BI, Looker, Git

PROFESSIONAL EXPERIENCE

Whoosh | Product and Data Analyst

Mar 2025 to Present

- Defined 100+ mobile events for 15+ features, translated measurement needs into data marts and dashboards, and evaluated launches with product teams.
- Identified onboarding funnel drop-offs and supported UX changes that produced a 5% relative conversion improvement in an A/B test.
- Created a personalized-offer experimentation framework and evaluated 10 tests to support profitability-based product decisions.
- Built business cases and financial models for product and operational initiatives and assessed expected versus realized ROI for quarterly prioritization.

T-Bank | Business and Systems Analyst, Collections

Aug 2024 to Mar 2025

- Designed and analyzed A/B tests of communication channels, timing and frequency to inform improvements to collection strategies.
- Delivered 20+ technical specifications, validated implementations with SQL and contributed to metric definition and validation for a buy now, pay later machine-learning feature.

Moscow Department of Transport | Geospatial Analyst

Jun 2023 to Aug 2024

- Analyzed demand and routes for Moscow's cycling infrastructure strategy through 2030 and developed data-backed recommendations for 100+ bicycle-parking locations.
- Presented findings to leaders at Yandex, Whoosh and Urent to align stakeholders on infrastructure decisions.

SELECTED PROJECT

Harvard University Spatial Data Lab | ODPT Challenge 2026

CompactLife Daily Routine Intelligence | Project in development | 2026

- Preparing CompactLife for the ODPT Challenge 2026, a mobility intelligence concept that helps users compare homes through complete daily routines and feasible multimodal journeys.
- Defined the MVP, user inputs, route-comparison outputs and constraints for opening hours, arrival deadlines, transfers, walking preferences and accessibility needs.

EDUCATION AND PROFESSIONAL DEVELOPMENT

HSE University | Master's in Operational Efficiency and Production Systems | Expected 2027

Lomonosov Moscow State University | Bachelor's in Economic and Social Geography | 2024

Karpov Courses | A/B Testing | 2025
