SVETLANA PERSHUTKINA

Operations Analytics Manager

Operational performance | Fleet reliability | Process improvement | Planning and ROI

Moscow, Russia | Open to UK relocation | Skilled Worker sponsorship required | Worldwide remote
pershutkina2000@gmail.com | English C1

PROFESSIONAL PROFILE

Operations-focused analytics professional with 3+ years of experience improving fleet, service and process performance. Own reliability and maintenance analytics across 7 countries and 100+ regions, build operating metrics and financial models, and turn findings into action plans for regional teams and executives. Combine operational judgment with strong SQL, Python and data-modeling capability.

CORE SKILLS

Operations management	Fleet quality, maintenance effectiveness, battery lifecycle, root cause analysis, KPI frameworks, process improvement, quarterly planning
Commercial analysis	Financial modeling, unit economics, ROI, investment cases, expected versus realized impact, prioritization
Data and reporting	SQL, Python, dbt, Dagster, Amazon Redshift, data modeling, Tableau, Power BI, Looker, automated reporting

PROFESSIONAL EXPERIENCE

Whoosh | Product and Data Analyst

Mar 2025 to Present

- Own fleet efficiency, reliability and maintenance analytics across 7 countries and 100+ regions, partnering with local operations, regional managers, product, engineering and executives.
- Built an early-detection system for damaged vehicles and redesigned the analytical decision process, reducing time to repair intake from 14 days to 1 day and improving referral relevance by 30%.
- Built a metric tree and automated fleet, battery and customer-experience reporting used by 100+ employees for daily action plans and performance reviews.
- Developed the data-backed case for a battery repair process covering degraded-battery removal, contractor diagnostics, lifecycle visibility and repair-cost targets.
- Build financial models and quarterly review materials, quantify initiative impact and compare expected with realized returns to support operational priorities.

T-Bank | Business and Systems Analyst, Collections

Aug 2024 to Mar 2025

- Designed and analyzed A/B tests of communication channels, timing and frequency to inform improvements to collection strategies.
- Delivered 20+ technical specifications, validated implementations with SQL and contributed to metric definition and validation for a buy now, pay later machine-learning feature.

Moscow Department of Transport | Geospatial Analyst

Jun 2023 to Aug 2024

- Analyzed demand and routes for Moscow's cycling infrastructure strategy through 2030 and developed data-backed recommendations for 100+ bicycle-parking locations.
- Presented findings to leaders at Yandex, Whoosh and Urent to align stakeholders on infrastructure decisions.

SELECTED PROJECT

Harvard University Spatial Data Lab | ODPT Challenge 2026

CompactLife Daily Routine Intelligence | Project in development | 2026

- Preparing CompactLife for the ODPT Challenge 2026, focusing on operational feasibility across transport feeds, walking networks, facility coverage and time-dependent routing.
- Defined operating checks for stale feeds, unknown opening hours, infeasible activity chains, source coverage, job failures and fallback behavior.

EDUCATION AND PROFESSIONAL DEVELOPMENT

HSE University | Master's in Operational Efficiency and Production Systems | Expected 2027

Lomonosov Moscow State University | Bachelor's in Economic and Social Geography | 2024

Karpov Courses | A/B Testing | 2025
