SVETLANA PERSHUTKINA

Senior Data Analyst

Data modeling | Decision support | Experimentation | Reporting automation

Moscow, Russia | Open to UK relocation | Skilled Worker sponsorship required | Worldwide remote
pershutkina2000@gmail.com | English C1

PROFESSIONAL PROFILE

Data analyst with 3+ years of experience building analytics foundations and decision systems across micromobility, fintech and transport planning. Combine advanced SQL, Python and modern data modeling with experimentation, financial analysis and stakeholder communication. Own analytics domains from source data and quality controls through metrics, reporting and recommendations.

CORE SKILLS

Data engineering and modeling	SQL, Python with pandas and NumPy, dbt, Dagster, Amazon Redshift, dimensional modeling, data warehousing, data quality, Git
Analytics	A/B testing, statistical significance, funnel and cohort analysis, segmentation, root cause analysis, forecasting, financial modeling, ROI
Business intelligence	Tableau, Power BI, Looker, Excel, KPI frameworks, dashboard development, recurring reporting, reporting automation

PROFESSIONAL EXPERIENCE

Whoosh | Product and Data Analyst

Mar 2025 to Present

- Designed a warehouse and 50+ reusable data models with dbt and Dagster, establishing consistent datasets for customer experience, fleet reliability and financial analysis.
- Built a metric tree and automated reporting used by 100+ employees, replacing manual exports with defined KPIs, scheduled dashboards and email updates.
- Initiated and evaluated 10 A/B tests of personalized offers; 8 produced statistically significant results and informed profitability-based decisions.
- Identified onboarding funnel drop-offs and measured a 5% relative conversion improvement after product changes through a controlled experiment.
- Built an early-detection system for damaged vehicles that reduced time to repair intake from 14 days to 1 day and increased appropriate repair referrals by 30%.

T-Bank | Business and Systems Analyst, Collections

Aug 2024 to Mar 2025

- Designed and analyzed A/B tests of communication channels, timing and frequency to inform improvements to collection strategies.
- Delivered 20+ technical specifications, validated implementations with SQL and contributed to metric definition and validation for a buy now, pay later machine-learning feature.

Moscow Department of Transport | Geospatial Analyst

Jun 2023 to Aug 2024

- Analyzed demand and routes for Moscow's cycling infrastructure strategy through 2030 and developed data-backed recommendations for 100+ bicycle-parking locations.
- Presented findings to leaders at Yandex, Whoosh and Urent to align stakeholders on infrastructure decisions.

SELECTED PROJECT

Harvard University Spatial Data Lab | ODPT Challenge 2026

CompactLife Daily Routine Intelligence | Project in development | 2026

- Preparing CompactLife for the ODPT Challenge 2026, with proposed data pipelines for ODPT transport feeds, OpenStreetMap facilities and consented activity histories.
- Designed layered raw, cleaned and model-ready datasets with source timestamps, coverage, dataset versions, chronology checks and privacy safeguards.

EDUCATION AND PROFESSIONAL DEVELOPMENT

HSE University | Master's in Operational Efficiency and Production Systems | Expected 2027

Lomonosov Moscow State University | Bachelor's in Economic and Social Geography | 2024

Karpov Courses | A/B Testing | 2025
