SVETLANA PERSHUTKINA

Senior Operations Analyst

Operations intelligence | Fleet and mobility | KPI systems | Process optimization

Moscow, Russia | Open to UK relocation | Skilled Worker sponsorship required | Worldwide remote
pershutkina2000@gmail.com | English C1

PROFESSIONAL PROFILE

Senior operations analyst with 3+ years of experience across micromobility, fintech and transport planning. Investigate operational problems, build KPI and reporting systems, model financial impact and translate findings into specific actions for local teams, product managers and executives. Current scope covers fleet efficiency, reliability and maintenance across 7 countries and 100+ regions.

CORE SKILLS

Operations analytics	Fleet performance, battery lifecycle, maintenance effectiveness, root cause analysis, process improvement, service quality, demand and route analysis
Decision support	KPI frameworks, financial modeling, ROI, quarterly planning, scenario analysis, recurring reporting, stakeholder communication
Technical	SQL, Python with pandas and NumPy, dbt, Dagster, Amazon Redshift, data modeling, Tableau, Power BI, Looker, Excel, Git

PROFESSIONAL EXPERIENCE

Whoosh | Product and Data Analyst

Mar 2025 to Present

- Own fleet efficiency, reliability and maintenance analytics across 7 countries and 100+ regions, alongside customer experience analysis.
- Built an early-detection system for damaged vehicles that reduced time to repair intake from 14 days to 1 day and increased the share of appropriate repair referrals by 30%.
- Built a metric tree and automated reporting used by 100+ employees, replacing manual exports with consistent KPIs, scheduled reports and email updates.
- Developed the analytical case for a battery repair process and a lifecycle status model to support transparent repair and replacement decisions.
- Build financial models, quantify initiative impact and compare expected and realized ROI for quarterly operational planning.

T-Bank | Business and Systems Analyst, Collections

Aug 2024 to Mar 2025

- Designed and analyzed A/B tests of communication channels, timing and frequency to inform improvements to collection strategies.
- Delivered 20+ technical specifications, validated implementations with SQL and contributed to metric definition and validation for a buy now, pay later machine-learning feature.

Moscow Department of Transport | Geospatial Analyst

Jun 2023 to Aug 2024

- Analyzed demand and routes for Moscow's cycling infrastructure strategy through 2030 and developed data-backed recommendations for 100+ bicycle-parking locations.
- Presented findings to leaders at Yandex, Whoosh and Urent to align stakeholders on infrastructure decisions.

SELECTED PROJECT

Harvard University Spatial Data Lab | ODPT Challenge 2026

CompactLife Daily Routine Intelligence | Project in development | 2026

- Preparing CompactLife for the ODPT Challenge 2026, a daily-routine intelligence concept using transport and spatial data to compare complete journeys across alternative homes.
- Designed operational datasets and scenario measures for travel minutes, walking, transfers, opening hours, arrival constraints and accessibility.

EDUCATION AND PROFESSIONAL DEVELOPMENT

HSE University | Master's in Operational Efficiency and Production Systems | Expected 2027

Lomonosov Moscow State University | Bachelor's in Economic and Social Geography | 2024

Karpov Courses | A/B Testing | 2025
