SVETLANA PERSHUTKINA

Senior Product Analyst

Product analytics | Experimentation | Customer experience | Operational performance

Moscow, Russia | Open to UK relocation | Skilled Worker sponsorship required | Worldwide remote
pershutkina2000@gmail.com | English C1

PROFESSIONAL PROFILE

Product analyst with 3+ years of experience across micromobility, fintech and transport planning. Own customer experience and fleet analytics across 7 countries and 100+ regions. Build measurement systems from scratch, evaluate experiments and turn analysis into measurable product and operational improvements.

CORE SKILLS

Product analytics	A/B testing, statistical significance, funnel and cohort analysis, retention, segmentation, metric frameworks, event tracking, Google Analytics, Firebase
Data	SQL, Python with pandas and NumPy, dbt, Dagster, Amazon Redshift, data modeling, data warehousing, Git
Business intelligence	Tableau, Power BI, Looker, financial modeling, unit economics, ROI, dashboard development, reporting automation

PROFESSIONAL EXPERIENCE

Whoosh | Product and Data Analyst

Mar 2025 to Present

- Own customer experience and fleet efficiency analytics end to end across 7 countries and 100+ regions, partnering with product managers, engineers, regional operations and executives.
- Initiated a cohort-based personalized-offer testing framework and ran 10 A/B tests; 8 produced statistically significant results, while 2 identified insufficient sample sizes. Findings informed profitability-based offer selection.
- Identified onboarding funnel drop-offs and partnered with the product team on UX changes that delivered a 5% relative increase in onboarding conversion, validated through an A/B test.
- Defined 100+ mobile events for 15+ features, built data marts and dashboards, and analyzed launches to guide product improvements.
- Designed a data warehouse and 50+ dbt and Dagster models that integrate behavioral, financial and fleet telemetry data into reusable analytics.

T-Bank | Business and Systems Analyst, Collections

Aug 2024 to Mar 2025

- Designed and analyzed A/B tests of communication channels, timing and frequency to inform improvements to collection strategies.
- Delivered 20+ technical specifications, validated implementations with SQL and contributed to metric definition and validation for a buy now, pay later machine-learning feature.

Moscow Department of Transport | Geospatial Analyst

Jun 2023 to Aug 2024

- Analyzed demand and routes for Moscow's cycling infrastructure strategy through 2030 and developed data-backed recommendations for 100+ bicycle-parking locations.
- Presented findings to leaders at Yandex, Whoosh and Urent to align stakeholders on infrastructure decisions.

SELECTED PROJECT

Harvard University Spatial Data Lab | ODPT Challenge 2026

CompactLife Daily Routine Intelligence | Project in development | 2026

- Preparing CompactLife for the ODPT Challenge 2026, a product and research concept that compares complete daily routines across alternative homes rather than commute time alone.
- Defined the first product version around user-entered work, shopping and care stops, feasible multimodal routes, opening hours, arrival deadlines and walking preferences.

EDUCATION AND PROFESSIONAL DEVELOPMENT

HSE University | Master's in Operational Efficiency and Production Systems | Expected 2027

Lomonosov Moscow State University | Bachelor's in Economic and Social Geography | 2024

Karpov Courses | A/B Testing | 2025
